

HIGH PERFORMANCE INLINE DUCT BLOWERS

When these inline duct blowers were conceived, reliability and efficiency were the main goal. It's more powerful motor combined with it's aerodynamically designed shape make VORTEX POWER-FAN the performance leader in it's category.

MADE IN CANADA, these high performance inline blowers feature superior steel construction with a Hammertone powder coat finish and convenient North American sizes from 4 to 12 inches.

Speed controllable and balanced motors with permanetly lubricated ball bearings ensure vibration-free operation.

VORTEX POWERFAN is all about performance, reliability, and quality all wrapped up into one package to ensure peace of mind for years. GREAT CHOICE for positive pressure systems.
