

TJ4200 TOPJET CEILING AIR INLET

A REVOLUTIONARY, PATENT PENDING DESIGN THAT MAXIMIZES JET TECHNOLOGY. ALL SEASON, FOUR DIRECTIONAL INLET FEATURES LOUVERS THAT OPEN FROM THE TOP INSTEAD OF THE BOTTOM. THIS DIRECTS AIR ALONG THE CEILING AND HOLDS THE AIR UP LONGER WHILE MIXING WITH ROOM AIR AND DISTRIBUTING IT MORE EVENLY THROUGHOUT THE ROOM.

**Snap together design, two inlets per box
