

GREENHOUSE FAN

European engineered horizontal air flow fans designed specifically for Greenhouse applications.

Why choose this fan

- Powerful, quiet fan
- Among the most energy efficient in its class
- Low investment costs
- Easy to install
- Easy to maintain
- Materials resistant to extreme conditions
- **Long service life: 3-year motor warranty**

Features

- Motor insulation class F.
- IP55 motor (water-resistant and dust-resistant)
- Energy efficient
- Low noise level
- Built-in thermal protection for single-phase motors
