

Multifan **GALVANIZED BOX FAN**

Multifan products are well-known for consistent high quality, durability and longevity.

Their motors are produced in-house, and optimal motor-impeller combination ensure energy efficient and high performance fans.

PART #	DIA.	DESCRIPTION	VOLT	AMPS	CFM@0"S.P.	DIMENSIONS LxWxD
E50-0250Q	50"	GALV. BOX FAN	240	6.8	26,000	54" x 54" x 17.9"
E50-0254Q	54"	GALV. BOX FAN	240	8.4	29,600	58.3" x 58.3" x 18.7"
E50-0250QC	50"	GALV. CONE FAN	240	6.8	28,000	54" x 54" x 17.9"
E50-0254QC	54"	GALV. CONE FAN	240	8.4	31,900	58.3" x 58.3" x 18.7"

MOTORS

PART#	HP	DESCRIPTION
E50-1262	1.5 HP	FM0136 240V 1 PHASE MOTOR (50" BX/CN FAN) (PRIOR TO AUG 2021)
E50-1272	1.93HP	FM505 240V 1 PHASE MOTOR (50" BX/CN FAN) (AS OF AUG 2021)
E50-1269	1 HP	FM0244 208/460V 3 PHASE MOTOR (50" BX/CN FAN)
E50-1261	2 HP	FM0393 230V 1 PHASE MOTOR (54" BX/CN FAN)
E50-1268	2 HP	FM0370 208/460V 3 PHASE MOTOR (54" BX/CN FAN)

Reliable

- Materials resistant against corrosive climates
- Water and dust resistant (IP55)
- Maintenance free V-belt for 130 cm Box Fan
- Abrasion resistant aluminum blade-pulley
- Blades made of durable polypropylene with fiberglass
- Resistant against UV-radiation
- 3-year warranty on the motor

Energy efficient

- Aerodynamic design for low air resistance
- Complies with upcoming ErP energy regulation
- Interconnected louvers for uniform opening
- Energy efficient IE2 or IE3 motors
