

SelectDoser™ Water Control Systems

THE SELECT DOSER IS A PROPORTIONAL ADDITIVE PUMP FOR AGRICULTURE, COMMERCIAL, INDUSTRIAL AND GREENHOUSE OPERATIONS.

IT ACCURATELY DISPENSES VACCINES, MEDICATIONS, VITAMINS, SANITIZERS AND OTHER SOLUTIONS INTO HIGH OR LOW PRESSURE SYSTEMS(DEPENDING ON MODEL CHOSEN).

USING BUILT-IN DOSING CONTROL SOFTWARE, THE PUMP MOVES SOLUTIONS THROUGH IT'S TUBING VIA COMPRESSION AND PERISTALTIC ACTION. THIS MEANS AGGRESSIVE PRODUCTS AND POWDERS NEVER PASS THROUGH THE PUMP'S MECHANISM CAUSING PERMATURE WEAR, CORROSION AND MAINTENANCE.

A WATER FLOW SENSOR IS FITTED INTO THE WATER LINE DOWNSTREAM WHICH ALLOWS PRECISE WATER TO PRODUCT RATIOS TO BE PROGRAMMED. WATER FILTER IS RECOMMENDED
