

THERMA GROW Plus GREENHOUSE HEATERS

(formally called GREENGRO)

SPECIAL ORDER ITEM ALLOW 4-6 WEEKS FOR DELIVERY

The only heater CSA certified specifically for Greenhouse heating, the **THERMA GROW** advanced technology **saves you 20% in fuel costs** while delivering a CO2 enriched environment that exceeds all greenhouse combustion and environment safety standards.

These units can be mounted either inside or outside

With the **THERMA GROW** ..fully enclosed electronic controls, gas valve and motor are standard, there is no expensive heat exchanger to fix or replace. Safety features include a totally enclosed flame, built-in temperature protection and air flow safety devices.
